Education

Stanford University

B.S. Electrical Engineering, Minor in Economics

Stanford, CA

Expected June 2029

Relevant Coursework: Linear Algebra & Multivariable Calculus, Ordinary Differential Equations, Mechanics & Special Relativity, Programming Methodology in Python, Programming Abstractions in C++, Computer Organization & Systems in C, Information Science & Engineering, Principles of Economics.

MISK Schools — A-Levels

Graduated 2025

Riyadh, Saudi Arabia

Honors & Awards

International Physics Olympiad (IPhO) — Bronze Medal

Member, Saudi Arabian National Team

Isfahan, Iran

July 2024

- Selected as one of five students to represent Saudi Arabia in what is considered globally as the most competitive physics competition, and competing against 400+ of the top high school physicists from over 90 countries.
- Modeled and solved advanced open-ended problems — including greenhouse-effect dynamics and nuclear reactor efficiency — deriving quantitative results using graduate-level mathematics and physics.
- Demonstrated mastery across mechanics, electrodynamics, optics, quantum mechanics, and relativity under timed competition conditions.

Experience

Rewaa

Software Engineering Intern

Riyadh, Saudi Arabia

June 2025 – Present

- Build automation to streamline internal operational workflows, reducing manual effort across company processes.
- Contribute to development on the company's core retail-management product alongside the engineering team.

Leadership & Activities

IEEE Stanford — MTT-S & EDS Chapters

Secretary, MTT-S | Member, EDS

Stanford, CA

2025 – Present

- Lead Microwave Theory & Techniques Society chapter meetings and coordinate technical events, driving member engagement in microwave and RF engineering.
- Participate in Electron Devices Society events and discussions on semiconductor and electron-device topics.

Skills & Interests

Software: Python, C++, C, Assembly, statistical analysis, mathematical modeling.

Hardware: Circuit design and analysis, component integration, soldering, 3D printing, lab instrumentation.

Languages: Arabic (native), English (fluent).

Interests: Economics, business, and applied physics.
